PREFACE.

We present to our patrons our first Directory of Akron, hoping that it will meet with their approval.

A thorough canvass of the city has been made, and every effort used to obtain the name of every person who should be represented in a City Directory. Mistakes will occur, but we are confident that no more thorough and systematic canvass of the City has ever been made.

The Classified Business Directory is a complete mirror of the business interests of the City, and represents Akron to the outside world as only a Business Directory can. The Miscellaneous Directory furnishes a large amount of information useful to strangers.

Much care has been taken with the Street Directory, but the irregularity of the streets renders it exceedingly difficult to prepare a reliable guide to the streets of the City. Through the assistance of Mr. R. S. Paul, County Surveyor, we have been enabled to furnish much information in this respect not otherwise obtainable.

Our thanks are due to our numerous patrons for their liberal support.

OHIO PUBLISHING CO.,

PREFACE.

We present to our patrons our second Directory of Mansfield, hoping that it will meet with their approval

A thorough canvass of the city has been made, and every effort used to obtain the name of every person who should be represented in a City Directory. Mistakes will occur, but we are confident that no more thorough and systematic canvass of the City has ever been made

The classified Business Directory is a complete mirror of the business interests of the City, and represents Mansfield to the outside world only as a Business Directory can. The Miscellaneous Directory furnishes a large amount of information useful to strangers

Our thanks are due to our numerous patrons for their liberal support
