INTRODUCTORY.

IN PRESENTING TO THE PUBLIC our Thirteenth Volume of the Akron City Directory, and the fourth including a Directory of Summit County, we desire to say that it has been our earnest endeavor to make the work complete and to embrace, so far as practicable, every feature that will add to its usefulness

It affords us much pleasure to note the many manufacturing and other interests that have been added to Akron since our last issue.

Owing to the rapid growth of our city and the many new names added we find it necessary to enlarge our pages, use smaller type and print in double column, thereby making the work more convenient, which we hope, will be appreciated by our patrons.

THE PUBLISHERS

GENERAL INDEX.

130 S. HOWARD STREET, - AKRON, O.

The story of Picturesque Mackinac has caused thousands of strangers to visit our Northern Lakes. Its truthful pictures by both pen and pencil excite wonder and admiration. The original design, embracing both illustrative and typographical features, has recently been much improved, and the revised edition, now in press,

A copy of the work will be forwarded on receipt of 5 cents in stamps to pay postage.

HISTORICAL
AND
DESCRIPTIVE

BY
E. B. WHITCOMB
DETROIT MICH
ILLUSTRATED
BY
SPECIAL ARTISTS

W. S. GARDNER & CO. DETROIT

A synopsis of the book, under title of "Midsummer Voyages on Northern Seas," containing additional routes and rates, mailed free of charge, on application.

will certainly prove the most powerful exponent of the Great Lakes ever published, while as a tourist guide it is unrivaled, as it both interests and instructs. Address E. B. WHITCOMB, DETROIT, MICH

IN presenting this little pamphlet, the writer assumes that the public, or at least that portion of it that goes from home during the summer months, is well educated to the efficacy of vacations, and will not waste the limited space at his command by useless homilies on that over-written subject. Instead, it is intended to tell, in a fair and impassible manner, of the delights of a lake trip, and, by means of practical descriptions and detailed information of the company's routes, aid the prospective tourist in his selections.

Travel on the water may truthfully be called the acme of delight, pleasing, as it does, more generally than any other source of amusement, the extremes of all classes and temperaments. Again, while it gently stimulates that zest for adventure, so inherent in every American bosom, it accomplishes its main purpose by overcoming the weariness or ennui occasioned by the hot weather and enabling humanity to make the most out of a short resting spell. It is hard to determine from which conditions these results spring, the new and novel life, whereby the over-wrought brain is diverted in spite of itself to insignificant matters involving little or no mental exertion, the life-giving ozone distilled by the tremendous expanse of air and water penetrated, the constant unrolling of those grand beauties of nature so beneficial to every temperament, or the enforced absence from all suggestions of business or household, they can invariably be depended on to do their work, however

The invalid, especially if suffering from hay-fever or bronchial affections, may be equally certain of beneficial results. Mackinac and Petoskey are so celebrated as sanitariums for these maladies that we shall not sound their praises here. It is not so well known, but assuredly a fact, that the wonderful purity of atmosphere to which these resorts owe their reputa-

tion, gives to the lake voyage the same curative properties, and the sufferer may embark with certainty of being so benefited in the outset that his trip will be thoroughly enjoyable.

SOLID COMFORT EN ROUTE

IS an expression full of meaning to the experienced traveler, suggesting that a pleasant journey may have much to do with subsequent enjoyments. The company has considered it so, and always shapes its policy so as to anticipate every want of its patrons. Started in 1850 with the parent route between Detroit and Cleveland, its capital now exceeds a million dollars, and it owns a fleet of

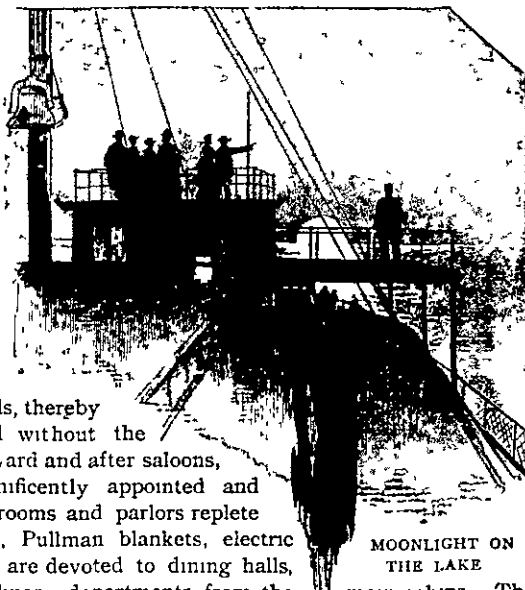

GRAPHIC ARTS, DETROIT

MIDNIGHT ON LAKE ERIE

five steamers, the largest, swiftest and most luxurious on fresh waters. The company builds none but steel vessels of the strongest pattern, thus securing, with the addition of sufficient watertight compartments, practical indestructibility.

While all the newest marine ideas of real merit are invariably made use of the policy of the management is well defined in the uniformity of general design. The steamers are roomy side-wheelers, propelled by the Clyde patterned feathering wheels, thereby developing a marvelous speed without the slightest jar or noise. Their forward and after saloons, of solid mahogany, are magnificently appointed and tastefully decorated, and their rooms and parlors replete with wire and hair mattresses, Pullman blankets, electric lights, etc. The lower saloons are devoted to dining halls, which entirely separate the culinary departments from the main cabins. The cuisine, which is equal to that of any first-class hotel, includes all the luxuries of the season, and the price charged barely meets the outlay. In fact, it may not be egotistical to say that the Detroit and Cleveland Steam Navigation Co offers to persons of fastidious tastes the only solid satisfaction to be found in inland travel.

MOONLIGHT ON
THE LAKE

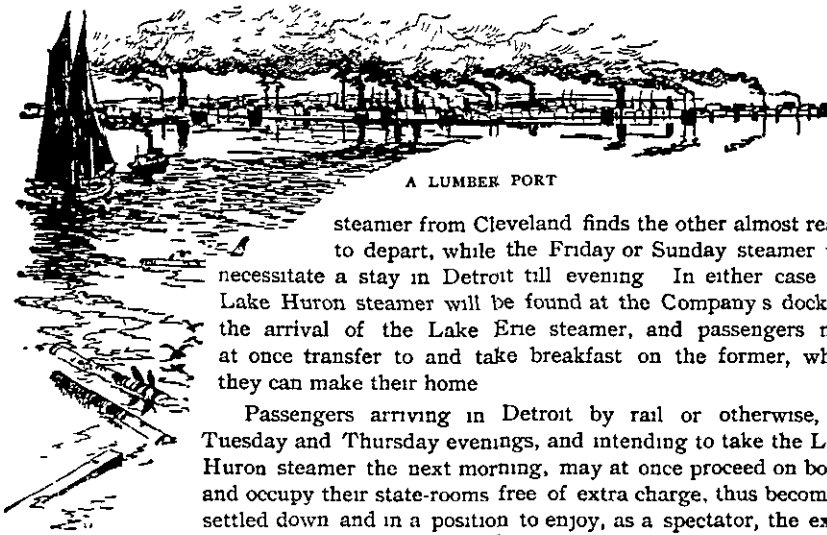

THE LAKE ERIE DIVISION.

BETWEEN Detroit and Cleveland may be called the main stem of the company's lines. Operated between two large cities, a sufficiently steady patronage is received to warrant the best of service, and to this end two mammoth sister ships have just been built. Their extraordinary size and grandeur has placed the route in the front rank of that comparatively small array of trunk lines to which travelers of experience look forward with pleasant anticipations. We may describe the new City of Detroit, the latest addition, as being 300 feet long by 72 feet wide and 16 feet molded depth, with hull divided into nine water-tight compartments. The boilers are four in number and carry 110 lbs of steam. The engine is a compound beam of 2700 horse-power. The grand saloon is of solid mahogany, and contains a double tier of state-rooms connected by a broad gallery. It is 240 feet in length, and its dome rises 20 feet overhead. There are over 140 state-rooms and parlors, each lighted by an electric lamp. The City of Cleveland is similar in every respect. A steamer leaves either city late in the evening and arrives at her destination long before breakfast, making connections with all arriving and departing trains, and forming by far the shortest and cheapest as well as the most delightful route between many far distant cities. Steady travelers, usually confined to the hot, dusty, noisy rail car, always avail themselves of the charming quiet, cool fresh air and luxury of a full night's rest afforded by this water route. The Sunday night trips, from June to September, are very popular and have proved a great convenience.

Passengers intending to continue their voyage on the steamers of the Lake Huron Division may so plan their departure from Cleveland as to make direct connections at Detroit, or have a day for sight-seeing. The Tuesday or Thursday

BIRD'S EYE VIEW LAKE HURON DIVISION, DETROIT AND CLEVELAND STREAM NAVIGATION COMPANY

A LUMBER PORT

steamer from Cleveland finds the other almost ready to depart, while the Friday or Sunday steamer will necessitate a stay in Detroit till evening. In either case the Lake Huron steamer will be found at the Company's dock on the arrival of the Lake Erie steamer, and passengers may at once transfer to and take breakfast on the former, which they can make their home.

Passengers arriving in Detroit by rail or otherwise, on Tuesday and Thursday evenings, and intending to take the Lake Huron steamer the next morning, may at once proceed on board and occupy their state-rooms free of extra charge, thus becoming settled down and in a position to enjoy, as a spectator, the exciting scenes incident to departure the next day.

THE LAKE HURON DIVISION

EXTENDS from Detroit to Mackinac Island on the Straits of Mackinac, a distance of 350 miles, mostly through Lake Huron. From Detroit to Port Huron, at the foot of the lake, the scenery is most charming, embracing the headwaters of the Detroit River, the placid Lake St. Clair, the far-famed Government ship canal, the famous St. Clair Flats fishing and shooting ground and the majestic St. Clair River. From Port Huron, all suggestion of land disappears on the starboard bow, and only shows faintly on the port or American side. Occasionally, when the steamer approaches a way port, the passengers have time to gather some ideas of the characteristics and occupations of the inhabitants of this purely lumber region, but for the most part of the twenty-four hours spent on Lake Huron, they will experience the sensation of being in midlake.

Considerable interest attaches to many way ports because of their note as camping or resorting spots. At St. Clair or Port Huron clubs are constantly located from July to September, and at Oscoda, Alpena, Cheboygan and St. Ignace bodies of hardy men may frequently be seen embarking or debarking. Those leaving the steamer are making for some inland lake or stream, the others need naught but the trophies of their skill to tell of their whereabouts during the preceding two weeks. In fact, the whole of the country surrounding Mackinac offers endless attractions to the adventurous. Well-stocked rivers and lakes abound, and the interminable forest is still overrun with furred and feathered creatures.

After touching at Mackinac, the steamers cross to the freight terminus of the route at St. Ignace. This occupies from four to six hours, and those who wish to return at once can, without laying over, see considerable of the main points of interest at the famous National Park, if they engage one of the charioteers for a drive.

This delightful round trip of 920 miles from Cleveland or 700 miles from Detroit occupies $4\frac{1}{2}$ days from the former or $2\frac{3}{4}$ days from the latter point. It costs but a trifle more than \$4.00 per day all told, and at that price is most emphatically within the reach of all. You cannot go anywhere and compass so much enjoyment and solid comfort by the way. A summer trip should be planned to get all the quiet and fresh

ARCH ROCK, FROM THE BEACH

air possible Such complete relief is only found by taking a water trip, where the scenery is varied and attractive, and there is ample time for a good look at every interesting object

THE COST OF A ROUND TRIP

CANNOT be intelligently shown without some explanation. By the company's advanced system, meals and berths are not included in the price of a ticket, and patrons are at liberty to provide for themselves if they so desire Berths are in rooms, and cost \$1 00 for the upper or \$1 50 for the lower, on each steamer, no matter if the trip be one or two nights The whole room accommodates three persons and costs \$2 50 Meals cost 50 cents each and may be estimated by the time card These expenses are invariable, except for children under five, when the meals are 25 cents Our table of costs is not guaranteed, but the figures are more likely to fall below than rise above the estimate

	FROM CLEVELAND	FROM DETROIT
Transportation	\$ 9 00	\$ 7 00
Meals	5 00	4 00
An upper berth for the trip	4 00	2 00
	-----	-----
Total with upper berth	\$18 00	\$13 00
Extra for a lower berth	2 00	1 00
	-----	-----
Total with lower berth	\$20 00	\$14 00
Two persons in one room	38 00	27 00
Third person, add transportation and meals	14 00	11 00
	-----	-----
Total cost, three persons in one room	\$52 00	\$38 00

Only the transportation is purchased in a through ticket. Meals and berths are arranged for exclusively by the company

MACKINAC ISLAND.

THE rockgirt, fairy isle, sitting like an emerald gem in the clear, pellucid wave, rises majestically from the crystal waters, which cover but cannot conceal the glistening, white pebbly depths beneath It is the central point of the three great lakes It knows no land breeze, hence the winds are always cool and refreshing, they never cease flowing Its area is over two thousand acres, of which the national park and military reservation comprise about nine hundred The natural scenery is unsurpassed Nature seems to have exhausted herself in the manifold objects of interest which meet the eye in every direction The lover of Mother Earth will hardly grow weary of wandering through its shaded glens, and climbing over its rugged rocks, each day bringing to light some new object of beauty and interest Longfellow, in his poem of "Hiawatha," has put into English verse some of its wild Indian legends, which people every rock and glen with spectral habitants If the poetic muses are ever to have a new Parnassus in America, they should certainly fix on Mackinac Island Hygeia, too, should place her temple here, for it is one of the purest, driest, clearest and most healthful of atmospheres

Nothing can exceed the beauty of this island It is a mass of calcareous rock, rising from the bed of Lake Huron, and reaching a height of more than three hundred feet above the water Some of its cliffs shoot up perpendicularly, and tower in pinnacles like half ruined gothic steeples The island shows unmistakable evidence of the water having once been two hundred and fifty feet above its present line It is a mooted question whether the lake has fallen from its original level, or the island has been lifted up It is cavernous in places, and in these the ancient Indians were wont to place their dead Portions of the beach are level and well adapted for landings

THE DETROIT AND CLEVELAND STEAM NAVIGATION COMPANY'S NEW STEEL STEAMER CITY OF CLEVELAND

Wm. H. Lick Co.

The harbor at the south end is a little gem. In it, vessels can anchor and be sure of a holding, and around it the little old-fashioned French town nestles in primitive style, while above frowns the fort, its white walls gleaming in the sun. This village is a perfect curiosity in itself. Situated at the foot of the bluff, its two streets extend for a distance of a mile along the beach. The buildings are a ridiculous mixture of the modern and antique. Some were brought from Old Mackinaw when the town

A STREET IN OLD MACKINAW

and fort were removed from that point after the massacre of June 4, 1763. Many of the fences are of the original palisade style. The whole area of the island is one labyrinth of curious glens and valleys. Old fields appear in spots which were formerly cultivated by Indians. In some of them are circles of gathered stones, as if the Druids themselves had dwelt there. The island was formerly covered with a dense growth of rock maple, oak, iron wood, etc., and there are still parts of this ancient forest left, but all the southern limits exhibit a young growth. There are walks and winding paths of the most romantic character among its hills and precipices. From the eminences overlooking the lake can be seen magnificent views of almost illimitable extent, and as the observer gazes from the rocky battlements of the fort upon the surrounding waters, there steals upon him a sense of security which seems a complete bulwark against the host of Summer annoyances.

The late Dr. Drake says: "The island is the most important summer resort to which we can direct the attention of the infirm or the fashionable. As a health resort it is unsurpassed. Its cool, dry air and the living streams of pure water which gush from the lime rock precipices, are just what are needed to bring back the glow of health to the faded cheek, and send the warm currents of life dancing through the system, superseding all necessity for nauseating iron, sulphur and epsom salts."

At watering places generally, all the features of the surrounding scenery are soon familiarized to the eye, which then merely wanders over the commingled throngs of coquettes, dandies, dancers and idlers, and soon returns to inspect the real or fancied infirmities of its possessor. A visit to Mackinac reverses all this. Its natural beauties and historic associations, together with the innumerable lesser attractions which cluster round about, serve to furnish visitors with so much entertainment and variety for either the robust or weakly ones, that ennui which eventually is felt at most resorts need not be experienced here. You eat with a new relish, and sleep like a child.

MACKINAC VILLAGE, AS SEEN FROM THE GUN PLATFORM OF THE FORT,

You row, or ramble, scarcely able to keep your buoyancy within bounds Dr. Mills, once post surgeon at Mackinac, says "No better place can be found for sickly girls and puny boys, for worn-out men and women From the hour of entering Lake Huron, your feelings will indicate that you have passed beyond the reign of miasma, fever, dyspepsia, blue devils and duns, and you look back upon the whole of them with gay indifference, or a feeling of good-natured contempt, as every turn of the steamer's wheel carries you farther into the temperate and genial climate of the lakes, and away from your perplexities Under these influences real diseases may abate, and the imaginary ones be forgotten, and this salutary mental excitement will not soon die away, for the historic associations, not less than the surrounding scenery, are well fitted to maintain it." Dr. Mann says "A few whiffs of the air would make your lungs give a hygienic laugh Children are crazy with animal spirits, and eat in such a way as to demonstrate the paradox that the quantity contained may be greater than the container" These extracts will no

doubt meet with a hearty response from thousands who have visited Mackinac

Dr. Hammond, the famous physician, says "I have no hesitation in saying that it is the best summer resort of which I have any knowledge, for persons whose nervous systems are run down, or who desire to be built up and strengthened"

HOTEL ACCOMMODATION

IS a very satisfactory problem at Mackinac There are innumerable hostleries of every grade of price and corresponding service If the tourist wishes to study the ancient features of the island from their stronghold, he will put up at the John Jacob Astor House This was originally the headquarters of the American Fur Company, and a glance at its low ceilings, scored by heavy timbers, its ancient fire-places, its clumsy iron door locks, and its old storing vaults will satisfy any lover of antiquities, even before he has been invited by the genial proprietor to inspect the account books of four score years ago The Mission House, at the extreme easterly point of the island, is another relic of yester olden time Commanding one of the best views on the island, it is very popular with those loving quiet repose

The place of all places for the fashionable resorters is Plank's Grand Hotel, situated on a commanding eminence at the western end of the island, and facing the straits This hotel is the largest summer resort in the West, accommodating as it does upwards of 1,000 guests, and representing a capital of \$300,000 Its rates are from \$4.00 to \$5.00 per day, and the season extends from July 1st to September 20th This tremendous building is 650 feet in length and five stories in height Its architecture is of the "Old Colonial" style, the distinctive feature being a colonnaded portico, 30 feet wide, upon which the windows of every floor open The interior is well arranged and fully equal to every demand of the most fastidious taste The lower floor is occupied exclusively by the dining-hall, drawing-room and private parlors, with the large rotunda office in the center The dining-hall is a mammoth apartment, capable of seating 600 people It occupies the space of two stories, the vaulted ceiling being 27 feet overhead The guest rooms are large, light and airy Each front suite is provided with a private balcony The hotel is lighted by gas and electricity, heated by steam, and provided with elevator and electric call and fire alarm bells It is also supplied with barber shop, bath-rooms, steam laundry and a first-class livery A metropolitan orchestra is in constant attendance The grounds have been made very attractive and a casino constructed for indoor sports The hotel is under the management of Mr. J. O. Plank

MACKINAC REGION.

ALL of Northern Michigan's many attractions are within easy reach of Mackinac Island. Indeed, so central is this spot, that the "Mackinac Region," as commonly spoken of, is supposed to include every attraction of the Great Lake Region of Upper Michigan. All methods of travel may be called into use, and all seem to start from a common center or hub, radiating as they do from this small island. Perhaps the most important of these secondary points is the Little Traverse Bay. Here, clustering within a mile or two of each other, and with fast extending suburbs almost touching, are Petoskey, Bay View, Wequetonsing, Harbor Springs and Harbor Point. The most expeditious route is via the G. R. & I. Railway, whose excellent train service renders communication possible at almost any hour of the day. The distance by this route is only thirty-five miles from Mackinac City, the nearest point to Mackinac, on the mainland. They may also be reached by either the day or night lines of steamers by way of Lake Michigan. By these lines the mileage is nearly doubled, and the better part of a day or night occupied in the journey. By far the prettiest route, however, is via the picturesque Inland Line of steamers through Mullet Lake and Indian River. The Michigan Central Railroad leading directly south, touches Topinabee and Indian River in an hour's ride from Mackinac. These points are also local to the Inland Route.

Charlevoix and Traverse City, on Grand Traverse Bay, are best reached by the steamers on Lake Michigan. They are about a day's ride from Mackinac.

A line of splendid steamers makes daily trips to Sault Ste. Marie, leaving Mackinac about nine in the morning, and passing all of the superb scenery of the St. Mary's River by daylight. At the Soo, connections are made with the through steamships running to the north and south shores of Lake Superior and to the Canadian ports situated on Georgian Bay.

In a water trip to Chicago or Milwaukee, there is considerable diversity of choice. The Lake Michigan and Lake Superior Transportation Co.'s steamers running without stops straight through the center of the lake, afford a quick trip and the novelty of being in mid sea for twenty-four hours. The Northern Michigan steamers, coasting to all important points on the Lake Michigan east shore, and consequently taking up more time, afford the tourist a better opportunity to view the industries of the region. Coming back to the service more directly connected with the island, we may mention that nothing gives a more general idea of its wonders than a trip around its shores in one of the numerous steam yachts. These trips are on at all hours of the day. So, also, are the fishing excursions to Les Cheneaux, than which no more delightful way of spending one day may be contrived. The ferry steamers, and the constant movement of steamers of regular routes, afford excellent opportunities to visit the mainland either north or south at any hour of the day or night.

PETOSKEY is a charming resort situated on the side of a high bluff near the head of Little Traverse Bay. The town numbers 3,500 souls, and has a water front

of $1\frac{1}{2}$ miles, to which a long pier gives considerable character and life. A lofty limestone cliff flanks it on the west. Among its trees may be seen the tents of many "campers," and further on the pretentious villas of wealthy residents. From the verge of this cliff the view is superb. Five miles distant is the ridge of hills that lines the opposite shore of Little Traverse Bay. These sweep in a symmetrical curve around this vast amphitheatre, and follow up the hither shore until they rise and terminate in high cliffs. The white line of pebbly beach which stands out so prominently against the green of the hills now takes an abrupt turn to the left, and forming a crescent two miles long, ends in a wooded point.

No summer resort or watering-place on the continent can boast of purer air, fresher breezes or better hotels. Facilities for recreation are also good. Boating on the bay and short excursions by steamer or railroad may be indulged in at all times. Owing to the salubrious climate and central location, the Western Hay Fever Association makes its headquarters here.

BAY VIEW COLLEGE

BAY VIEW, of Summer University fame, lies one mile further up the beach. Though but a few years have passed since the location of the grounds, this Assembly has become immensely popular in the East and South, ranking next to Chautauqua in size and completeness. The location is beautiful and no expense has been spared in improving its natural advantages. The land rises in natural terraces from the bay and affords cozy and picturesque sites for the four hundred cottages, of which glimpses may be caught through the trees. Clear cool water has been brought to these cottages through pipes from a never-failing spring further up the hill side.

HARBOR SPRINGS lies six miles further round the shore of Little Traverse Bay. It is located on a beautiful harbor (Wequetonsing) formed by the crescent of Harbor Point. Along the water's edge are large springs from which gush streams of water as clear as air and of a temperature only 12 to 15 degrees above freezing point. The history of the place is full of interest. Pieces of pottery show that it was once a stopping place for the ancient mound builders. It was for many years a central point for the payment of annuities, and for ages a favorite camp ground for the Indians. Many curious legends are extant. Strangers always visit the antiquated Catholic church, founded more than 200 years ago by Marquette.

THE HARBOR POINT RESORT, directly opposite, is singularly favored. The strip of rolling land on which it is situated is hardly more than a stone's throw in width, and while on the outer shore the heavy surf of Lake Michigan rolls grandly over a fine bathing beach, the children may with perfect safety paddle about the harbor within. Besides the large amusement hall and hotel which stands high above the beach on the breezy Lake Michigan side, the resort includes numerous cottages, which are provided for such of the guests as prefer the seclusion of their own roof.

CHARLEVOIX, 18 miles below Petoskey, on the Lake Michigan shore, is a most picturesque spot. The beautiful little town is situated at the mouth of a short strait, the outlet of Round and Pine Lakes. Further up, and just between the lakes, are the handsome grounds and residences of the Kalamazoo and Chicago Resorts, which occupy the north and south shores respectively.

THE INLAND ROUTE is undoubtedly the most interesting one between Mackinac and Petoskey. Nothing short of a water trip through the heart of Florida can compare to this wonderfully novel route by crooked rivers and lovely lakes, across the northern end of Michigan. Even with the former the comparison ends here, as the salubrious climate and the high forest grown shore are lacking. A little steamer leaves Mackinac at 7 o'clock, Cheboygan at 9 o'clock every morning, and after picking her way among logs and booms, past saw-mills and through the lock, steams up the crooked Cheboygan to Mullet Lake. The lake is 12 miles long by 5 wide, with a charming ruggedness of outline, caused by the thickly wooded hills which completely encircle it and form its shores. Topinabee, a favorite spot for campers, is situated at the further end, and here the passengers disembark for dinner. After a short rest the little vessel resumes her journey, and worries through Indian River into Burt Lake, the lower end of which is crossed in reaching Crooked River. The latter stream is the shallowest and most crooked of the three, and although the steamer draws but thirty inches of water, it is only by a constant succession of twists and turns, scrapes and pushes and stops and backs that she gets through to Crooked Lake, where after a run of three miles, she ties up to the wharf at Oden, after an exciting and highly interesting day. A dummy starts immediately on the eight-mile run to Petoskey, where it arrives in season for supper. The little steamers Romeo and Juliet which compose this line, are marine marvels. A vessel capable of carrying 150 passengers, which may safely and constantly make the trip through mid-lake from Mackinac to Cheboygan, yet at the same time is compact enough to wriggle through stretches of river that would seem impossible to crafts larger than a skiff, must be the handiwork of a genius. The twin screw system now in use on the most famous ocean flyers, has been employed in miniature to furnish the motive power. This enables the boat to turn in her own length, but even then, poles and ropes are in frequent demand, and the ingenuity and experience of the captain is taxed to the utmost.

MARQUETTE, the metropolis of Lake Superior country, is a very handsome city. Its business portion displays great activity and metropolitan tastes. Its residences, which are exceedingly beautiful, are placed high up on a bluff to the north, and command a view of the lake for 30 miles. While its central location makes it a capital base of operations for all the lovers of the rod and gun who visit these natural game preserves, it possesses no small attractions within itself. Speckled trout may be caught in the streams near by, while in the bay lake trout of twenty to thirty pounds in weight furnish exciting sport. The hotels are of the best, and everything necessary for hunting and fishing may easily be obtained.

THE TRIP TO THE SOO is worthy of note. The steamer after rounding Mackinac Island follows the northern shore of Lake Huron as far as Detour, at the entrance of the St. Mary's River, where the real interest begins. The river is 62 miles long, and is composed of a succession of beautiful straits and broad lakes. It is almost entirely shut in by high hills, which rise from the water's edge. In the many beauties and eccentricities of the stream and its outline, it is freely compared to the Hudson and other famous rivers. The channel is narrow, crooked and shallow, however, and must be passed by daylight. This is usually accomplished at dawn, this line being the only one which makes it at mid-day. The river is full of islands, and there are many popular hunting and fishing resorts along its course.

SAULT STE MARIE, a city of 8,000 inhabitants, may be reached by rail or water. There is much of interest about the old place. It lies on the left bank of the river, just below the famous government ship canal, built for the purpose of passing the St. Mary's Rapids. The government works are exceedingly interesting. The immense and perfect structure of masonry, the water power which runs all the machinery necessary to operate the monster gates of the lock, and the dynamos which furnish the electric lighting, are perfect in all their details, and well display man's ingenuity.

N. H. BURCH & CO.'S
AKRON CITY DIRECTORY

1890-91.

MISCELLANEOUS INFORMATION.

WARD BOUNDARIES.

AKRON, the county seat of Summit County, is divided into six wards, the lines and boundaries of which are as follows:

First Ward is bounded by a line extending from the city limits southerly on Howard street to Mill; thence eastward on Mill to Forge; easterly on Forge to Sixth Ward line, thence north to city limits, and includes all the territory east of Howard and north of Mill and Forge streets.

Second Ward is bounded by a line beginning on Howard street at Mill and extending along South Howard southerly to S. Main; along South Main southerly to Exchange; along E. Exchange easterly to Carroll, along Carroll east to Sixth Ward line, thence north (crossing Market at intersection of Buchtel ave) to Forge, Stone street forming part of the line. It includes all the territory east of Howard and Main and north of Exchange and Carroll, west of Sixth Ward line and south of Forge and Mill streets.

Third Ward line begins at the northern city limits and extends along Howard street southerly to S. Main; along S. Main southerly to Exchange, along W. Exchange northwest to city limits. It includes all the territory west of Howard and S. Main streets and north of Exchange.

Fourth Ward line begins at south city line and extends northerly along S. Main to Exchange; thence easterly on E. Exchange to Carroll, thence east on Carroll to Sixth Ward line; thence south to E. Exchange, thence west on E. Exchange to Spicer; thence southerly on Spicer to city limits. It includes all the territory south of Exchange and Carroll streets, between S. Main and Sixth Ward line.

Fifth Ward line begins at western city limits and extends southeast on W. Exchange to S. Main; thence southerly on S. Main to city limits. It includes all that part of the city south of Exchange and west of S. Main streets.

N. R. STEINER,
Real Estate and Insurance.

Handle nothing but my own allotments. Over 300 lots for sale in the Sweitzer and Steiner allotment, located at Main Street Station, South Akron. This is the most popular allotment in Akron. Office 112 W. Exchange St. Telephone 278.

Sixth Ward line begins at the northern city limits and extends directly south to E. Exchange st. (the line extending along Stone street, and crossing Market at the intersection of Buchtel ave.), thence west on E. Exchange to Spicer, thence southerly to city limits. It includes all the territory lying east of intersection of E Market and E. Buchtel ave, and south of E. Exchange and east of Spicer.

N. H. BURCH & CO.'S

DIRECTORY OF THE STREETS, AVENUES AND ALLEYS

—OF THE—

City of Akron, With Their Residents.

NOTE—The profession, business, etc., of individuals and firms appear in this list only at their places of business. Only the names of householders can be found in this department. For additional information concerning these, together with names, etc., of all other persons, refer to the alphabetical list of names. The names of streets will be found in alphabetical order, in bold faced type, then follows the number of each house with the head of family residing there, or person or firm doing business. Names in italics are the intersecting streets in their order. The residents of the north or east side of the street are first given, followed by those of the south or west.

Summit Sewer Pipe,

From the Largest Factories in the Country.

GEO. P. SPERRY,

At Tallmadge, has for the last nine years conducted the

LARGEST SEWER PIPE WORKS

Under one management in the United States, using in the manufacture of my ware the famous

SUMMIT COUNTY CLAYS

Which have been proven by experience, and the most rigid scientific tests, to be the best for the purpose in America, the pipe made from them surpassing in strength even the best Scotch Pipe

The Machinery is the Very Latest,

And being managed by skilled workmen, enables us to successfully compete with all other manufacturers Works situated on the N. Y, P & O R R Capacity, 20 car loads per week

WRITE FOR PRICES.

— * THE * —

F. Schumacher Milling Co.,

AKRON, OHIO,

MANUFACTURERS OF

* Rolled • Avena • (Oats), *

Put Up in Barrels and Cases, 36 Packages, 2 lbs. Each.

ALWAYS PURE.

ALWAYS RELIABLE.

• • • •

**Oatmeal, Rolled and Cracked Wheat, Whole Winter Wheat
and W. W. Graham Flour, Hominy, White
and Yellow Granulated
Cornmeal.**

Have recently added to their long list a new Cereal of inestimable value to those suffering from impaired digestion

Rich in gluten, germ gum and dextrine, it is favorably received everywhere under the name and trade mark

Schumacher's Parched Farinose!

For infants it may well supersede all other foods (save milk, which can never find a perfect substitute during the first weeks of life), because its ready and perfect digestion involves no strain upon feeble digestive powers. It contains all the elements demanded by the growing life, and for like reasons is equally adapted for invalids. By fever patients it is used as a thin gruel and is partaken with some relish, even when genuine appetite and all craving for food are suspended. Its bland, mucilage-like qualities peculiarly adapt it to all inflammatory conditions, especially in typhoid and other states in which intestinal lesions exist which are liable to be increased by irritating food. For the **Brain Worker** it will be found satisfying and helpful, because of its high phosphatic qualities. For all refined, active, ardent, progressive human beings it will prove a **PERFECT FOOD**, supplying all waste and restoring every exhausted energy. Added to all its excellences, its appetizing flavor will commend it to the palates of man, woman and child alike.

YOUNG MEN'S CHRISTIAN ASSOCIATION

OF AKRON, OHIO.

THIS DIRECTORY IS FULL

OF NAMES.

But what's in a Name? One of old thought there was much in a name when he said

"Who steals my purse steals trash, but he who filches from me my good name takes that which not enriches him but makes me poor indeed."

Competitors have endeavored to take away the good name of the

BUCKEYE

Which it has won through long years of triumph, but their efforts have failed and the

F A M O U S

BUCKEYE HARVESTING MACHINES

Stand to-day without flaw or blemish at home and abroad as the acknowledged

STANDARD of the WORLD.

They are Manufactured by

AULTMAN, MILLER & CO.,

AKRON, OHIO.

THE WORLD'S VICTORS!

Dr. H. Russell Burner's

SANITARIUM

—AND—

HEALTH INSTITUTE,

710 EAST MARKET STREET, AKRON, O.

DR. H. RUSSELL BURNER

For the treatment and cure of all chronic and surgical diseases, and diseases of the eye, ear, brain, blood and nervous system All diseases of the heart, lungs, stomach, liver and kidneys positively cured Diseases of women and children a specialty Doctor H. Russell Burner positively cures Catarrh, Cancers, Tumors, Epilepsy and spasms, piles and fistulae, and all such diseases as are neglected and never cured by the common regular family practitioner

Consultation and advice free at the Office or by correspondence

Address all letters to

DR. H. RUSSELL BURNER,

710 East Market Street,

AKRON, OHIO.

See Opposite Page.

WHY DOES

Dr. H. Russell Burner

Cure Chronic Diseases after all others fail?

— — —

ANSWER.

Because he makes the treatment of chronic, surgical and private diseases an exclusive specialty, and has devoted his whole life and fortune to the investigation and treatment of such diseases as family physicians can never be prepared to treat or cure. Dr Burner has the finest collection of instruments, appliances, manikins, models, skeletons, charts and diagrams, of any private party in the world. He has spent more money, traveled farther and worked harder for the relief of the sick and afflicted than any man in the nineteenth century.

Dr. H. Russell Burner is consulted by the best and most eminent physicians and surgeons in this country, and no one afflicted with any form of chronic, long standing or difficult disease should fail to consult this most eminent and successful physician and surgeon.

Consultation, examination and advice free to all

John Wolf Makes to Order Ladies' and Misses' Cloaks.

READ OUR RHYMES

TICKETS.

For concerts balls and shows—
Tickets we print
In every tint
From red to yellow and rose

DODGERS.

When a man
Wants a dodger
He wants it without delay
We will print
A first-class job
And deliver it on the same day

PROGRAMS.

Did you ever shake the hand
That shook the hand of Harrison?
Call and get our estimates—
Our work will stand comparison

BILL HEADS.

People pay their bills
With cash and satisfaction
When they see the heading printed
By GEORGE C JACKSON

ENVELOPES.

Oh! business man!
When you began
To follow the proper paper,
Was when you went
Or to us sent
For envelopes and paper

STATEMENTS.

When Freedom from her mountain height
Unfurled her standard to the air,
She took a printer's "stick" so bright,
And set her advertisement there

LETTER HEADS.

So we like Freedom take our "stick,"
To set our "ad" in letters bold
And unfurl our standard with the click
Of type that's worth its weight in gold

BUSINESS CARDS.

Are you one of the particular kind,
Who always want their cards
Superaesthetical,
Alphabetical
After the style of the bards?
Gentle reader, we can suit your mind.

GEORGE C. JACKSON,

Schumacher Milling Co.'s Office, Down Stairs.

CUYAHOGA FALLS.

The most picturesquely located spot in Summit County, possessing more natural advantages for the manufacturer, and more points of interest for the tourist and pleasure seeker, than any other point in the State, is located on the C., A. & C. and P. & W. R. Rs., 4 1/2 miles from Akron, and eight miles from Hudson. It is quite an im-

portant station upon both roads, and is easily accessible from all points through connections made with other roads. It is the second place in size and population in the county. The Cuyahoga river, from which the village takes its name, furnishes almost unlimited power for manufacturing purposes, which is here fully taken advantage of. The following are the principal

Manufactures.

The extensive Sewer Pipe and Hollow Brick & Tile Works of Camp & Thompson, Pearl Flouring Mill of Howe & Co., Falls Hollow Staybolt Co.; Cuyahoga Paper Co., tannery of C. Kittelberger, the Stoneware Factory of E. W. Saxe; Carriage Factories of William Blorg and John Clayton; Falls Rivet Co. and Turner, Vaughn & Taylor's Foundry.

The Cuyahoga Reporter and Western Reserve Farmer, one of the best and liveliest weeklies in the State, is published by E. O. Knox.

The Falls is connected with Akron, Hudson, Kent, Cleveland and other points by telephone. The Western Union Telegraph, Adams and Wells Fargo & Co's Express have offices here.

Pleasure Resorts.

SILVER LAKE AND PARK, B. H. Lodge Proprietor. This beautiful resort, the prettiest in Ohio, is situated near the line of the Cleveland, Akron and Columbus Railway, one and a half miles from Cuyahoga Falls. A steamboat with carrying capacity of 500 passengers, runs in connection with the railroad. A fleet of boats for fishing or pleasure riding are always at hand. The bathing facilities are unsurpassed in Northern Ohio.

COVENTRY TOWNSHIP

Town 1, range 11, is bounded on the north by the city of Akron and Portage Township, on the east by Springfield Township, on the south by Green and Frankh, and west by Norton Township. There are numerous small lakes in the Township, the principal one being Summit Lake, through which the Ohio Canal runs. Vast beds of bituminous coal are everywhere found, particularly at Thomastown. At New Portage are located the works of the Portage Strawboard Co., one of the most extensive in the country. The New York, Pennsylvania & Ohio, and the Cleveland, Mr. Vernon & Delaware railroads both run through the Township, which has an area of taxable lands of 17,046 acres. First settled in 1806

FRANKLIN TOWNSHIP.

Lies south of the Western Reserve line, and belonged originally to Stark County. It was first settled in 1814, and now contains two flourishing villages, Manchester (Nimisila P. O.), and Clinton Besides being a splendid wheat growing section, it is underlaid with vast beds of bituminous coal. The township is six miles square, and contains a taxable area of 18,927 acres. It is bounded on the north by Coventry and Norton townships, on the east by Green, on the south by the line of Stark County, and on the west by the

GREEN TOWNSHIP.

Town 12 Range 9 is six miles square and has an acreage of 21,976. This Township was first settled in 18 9 and originally belonged to Stark County. Its principal village—Greenburg (Inland P O) was laid out in 1828. East Liberty (Summit P O) and Myersville are also in the Township, which lies south of the Western Reserve line, and is bounded on the north by Springfield and Coventry Townships, east and south by the line of Stark County and west by Franklin Township. The Valley Runway runs along the eastern line. Green is located in a fine agricultural section of country which is watered by Namisila Creek and numerous small streams.

NORTHAMPTON TWP.

Is located in town 3, range 11, and nearly in the center of the County. It was first settled in 1802, and is bounded north by Boston, east by Stow and Cuyahoga Falls, south by Portage and west by Bath Township. The Cuyahoga River, Ohio Canal and Valley Railway run through the Township, which contains 14,500 acres of arable land, and which is one of the greatest dairy sections in the country. The principal villages are Botzum (Buckeye P O) and Everett, both on the Valley Railway.

NORTHFIELD TOWNSHIP.

Town 5, Range 11, is located in the extreme northern part of the County, and is bounded on the north by the line of Cuyahoga County, east by Twinsburg Township, south by Boston Township, and west by the Cuyahoga River, which is also the line of Cuyahoga County. It was first settled in 1807, and has now a taxable area of 15,439 acres. Its principal villages are Northfield Center and Macedonia depot, the latter on the C & P R R, which runs through the eastern part of the township

NORTON TOWNSHIP.

One of the most important and best agricultural Townships in the County, lies in town 2 range 12, and contains 14-640 acres of taxable lands, exclusive of the villages. Coal is found in paying quantities in various parts. The N. Y. P. & O and C. A. & C. Railroads both run through. The Ohio Canal also traverses the southeastern portion of the Township, which is bounded on the north by Copley, east by Coventry, south by Franklin and the line of Wayne County, and west by the line of Medina County. Johnson's Corners, Loyal Oak, Norton Center, Western Star, Dennison and part of New Portage are all located in this Township.

PORTAGE TOWNSHIP.

The most important township in the county It lies in town 2, range 11, and was first settled in 1810 The name was derived from "the Portage Path," which extends from Old Portage, on the Cuyahoga, to New Portage, on the Tuscarawas, and which passes through this township. All the lands east and west are bounded by it. The Ohio Canal, N. Y. P. & O., C., A. & C., and Valley Railway, all run through this township, which is circumscribed by the townships of Northampton on the north, the City of Akron and Coventry on the south, Cuyahoga Falls and Tallmadge on the east, and Copley on the west Total area of taxable lands, 14,626 acres

SPRINGFIELD TOWNSHIP.

Was first settled in 1837, and has an area of 16,993 acres. It lies in town 1, range 10, and is bounded on the north by Tallmadge and Middlebury, east by the line of Portage County, south by Green and the line of Stark County, and west by Coventry. It is probably the most important township in the county as regards its mineral and agricultural products, stone and coal being very abundant, besides inexhaustible quantities of potters' fire proof brick and sewer pipe clay, as well as iron ore in vast quantities. The villages of Brittain (White Grocery), North Springfield, Mogadore and Millheim are located in the township. The water from Springfield Lake furnishes power for a number of mills at Akron.

**TALLMADGE TOWN-
SHIP.**

One of the original standard Town-
ships, was first settled in 1807. It lies
in Town 2 and Range 10, and is bounded
on the north by Stow and Cuyahoga
Falls, on the east by the line of Portage
County, on the south by Springfield,
and on the west by Cuyahoga Falls,
Portage, and the city of Akron. The
west half of the Township is underlain
with coal, and the soil throughout is
extremely fertile. The New York,
Pennsylvania & Ohio Railroad runs
through from southwest to northeast.
Its area in taxable lands is 13 583 acres.
