# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself

1. To consider, first, the interest of the user of the book

2. To subscribe to and work for truth, honesty and accuracy in all departments

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates

4. To increase public knowledge of what Directories contain, to study public needs and make Directories to supply them, to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity

6. To solicit subscriptions and advertising solely upon the merits of the publications

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold

8. To co-operate with approved organizations and individuals engaged in creative advertising work

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**

We have on file in our Directory Library every issue of the Akron City Directory, beginning with the 1868 edition, down to the current issue. These volumes contain a wealth of information concerning the people who were listed in the Directory during the past 66 years.

Persons listed in the earlier Directories are now only memories, but their listings in the Directory remain the same as when they were here in person.

These rare volumes, as well as hundreds of current Directories of other cities, are available for public reference, without cost,—just a part of our service.

# The City Directory

is the most effective and economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The *Classified Lists* in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want, when you want it.

## **WRINKLES OF SAFETY**

● Why do *your* tires slip and slide? Because they have stiff, unyielding tread ribs that act like sled runners when you try to stop. To eliminate this sled-runner sliding, General invented the Dual-10—a tire with tread so flexible it *wrinkles* when brakes are applied. The wrinkles squeegee wet pavements dry—they sweep aside loose dust and greasy traffic film on dry roads—GRIP and STOP right now!

### **TAKE A RIDE**

Prove to yourself that Dual-10 Tires eliminate skidding worries. Try them yourself—give them any test. Come in for FREE demonstration ride.

Copyright 1936 General Tire & Rubber Co. Akron, O

### **NEW WRINKLE**

The General Dual-10 tread is flexible — it wrinkles into a squeegee action when brakes are applied — sweeps the pavement clear of water and loose dirt — provides firm traction footing — GRIPS and HOLDS — without tail spin or skid. The World's Quickest, Safest Stop.
