# INTRODUCTORY

We take pleasure in presenting the 37th volume of the **Akron City Directory**, supplemented by Directories of Kenmore, Barberton and Cuyahoga Falls, our thriving neighboring towns. All have enjoyed a substantial growth during the past year.

Akron has made great strides in growth, but the past year seems to have broken all records in population, building and commercial growth.

We have made a careful count of the individual names contained in the Akron alphabetical list in this volume and find a total of 56,389 and by using a conservative multiple two (2) to cover names of married women and children, would indicate a present population of 112,778. In justice to the subject will say that last year Kenmore was included with Akron, showing a combined population of 106,204. Kenmore will be found in a separate department in this issue. As stated above Akron alone this year shows a total population of 112,778, which indicates a growth far beyond the expectation of the entire Booster family.

We wish to return our sincere thanks for the liberal support extended us by the business people and for valuable assistance rendered by the citizens generally in making it possible for us to produce this volume of information.

Respectfully,

THE BURCH DIRECTORY CO.

When We Equip Your Car With

# Firestone

Non-Skid Tires

That ticklish, turn on a slippery road is literally "a cinch" with this equipment

The dictionary defines "cinch" as "a tight grip—a sure thing" So it is with Firestone Non-Skids—your grip is *tight* and *sure*.

The extra thick, buoyant tread holds the car true and steady. It prevents vibration and adds to your comfort and the life of your car.

We can give you both Non-Skid and Smooth Tread—the equipment which insures—

*Most Miles per Dollar*

## The Utmost in Quality

of materials combined with brains, science and care go into the building of every Marathon Tire. Better quality is, utterly impossible at any price. And quality means service, satisfaction and economy to Motorists.

When we guarantee every Marathon Tire for 4,000 miles, we take no chance—for we know that is the minimum service. On an average, Marathons twice outlive our 4,000-mile guarantee.

Prove them on your car, with the next best tire you know. The test will make you a Marathon user exclusively.

### POWER TRANSMISSION APPLIANCES, for Belt or Rope Distribution

Falls Friction Clutch Pulleys and Couplings, consist of a combination of mechanical movements, which are the acme of simplicity and strength. All parts standardized, accessible, easily erected and adjusted, made solid or split

Made With 4 or 6 Arms

### FALLS TYPE OF ROPE DRIVES

Power may be distributed with rope by two distinct methods the English or Multiple System, and the American, or Continuous System. The English System is usually used in main drives of larger powers, while the American, or continuous wrap system, operates successfully from small to large loads and on long or short centers, horizontally, vertically, parallel, or at any angle to each other. On the latter system, the use of Tension Carriages is essential to keep a uniform tension at all times on the rope.

## Facts About Directory Advertising

It Is the Only

Advertising that is not "hit or miss" from the fact that it can always be found when wanted.

It Is the Only

Advertising medium that has no competition and is used by practically the whole community and is not used for kindling purposes a short time after issued—nor is it read once and thrown away.

It Is the Only

Advertising which is on the job 365 days in a year and in many establishments, 24 hours a day

It Is the Only

Advertising medium where you can advertise your goods with absolute certainty that the public can find this information when desired.

It Is the Only

Advertising medium where you would look and expect to find what you want when you want it.

It Is the Only

Advertising medium that represents every business house in the City, and to omit your sign therefrom is like neglecting to place your sign in front of your *place of business*
