AKRON IN THE WAR (1918)

During the past year of war Akron has demonstrated anew its greatness by its response to the various calls for patriotic service.

A total of approximately 8,500 men have joined the United States National Army by draft, and an estimated total of at least 1,500 as members of the Akron units organized before the war and those enlisted in various branches since the war began, making a grand total of about 10,000 Akron and Summit county boys in the service. Akron stands among the leading cities in the country in number of soldiers in proportion to population.

Every Liberty Loan was oversubscribed in this county, and subscriptions for the three loans totaled \$16,339,000 as compared with the quota of \$14,079,000. Subscriptions to the Y M C A and Y W C A merger war work fund reached a total of \$160,000, \$209,000 was contributed to the Red Cross, and \$105,000 to the Knights of Columbus war fund. A million and a half dollars was asked of the people of the county for a War Chest. Subscriptions totaled over \$2,500,000.

Akron's industries are busy manufacturing war materials for the United States government. In addition to the generally known articles such as gas masks, balloons, truck tires and auto trucks, the Akron factories have contracts for a large quantity of miscellaneous goods in various lines for war purposes.

Akron's 168 manufacturing plants employ 65,000 people and had a total payroll in 1917 of \$66,000,000. The value of manufactured products reached a total of \$342,782,000. Building permits in 1917 totaled \$14,915,855 in value, an increase of 10 per cent over 1916. Bank clearings for 1917 totaled \$299,996,000, an increase of 44 per cent.

Akron still leads as the rubber manufacturing center of the world, with 24 companies, which turned out in 1917 about 50,000 tires daily, besides immense quantities of other rubber goods. The manufacture of Cereals, Trucks and foundry products shows a splendid increase over past years.

This issue of the Directory (Akron only), contains the names of 86,128 individuals which represents a population of approximately 160,000.

We hereby return sincere thanks to each and every person who has assisted us in the preparation of this work.

Respectfully,
