A list of the photographs can be viewed from the Local History Database (<http://www.akronlibrary.org/DBS/SpecColldbO/Default.aspx>) by searching for material type of Photographs and using Samuel Lane as the key words.

SCOPE AND CONTENT: The original photographs published in the *Fifty Years and over of Akron and Summit County* were donated by Frank P. Lane in 1939. Copies of the sketches, primarily portraits, included in the book were created and added to the collection several years following the donation. The collection now contains 57 images, 46 of which are original 19th century photographs.

These images capture the important people and places of Summit County as Samuel Lane viewed the history of Akron and Summit County in 1892, when his book was published. Mr. Lane's 1889 letter to the library requesting information on its history for inclusion in his book, is part of the Library History Collection.
