HOW TO USE THE AURON BEACON JOURNAL INDEX

Index entries are arranged alphabetically under subject or person's names. In most instances material has been filed under specific rather than under general headings. Examples: Baseball news is UNDER BASEBALL and not under SPORTS; news concerning the New York Central Railroad is under that name and not under RAILROAD or TRANSPORTATION.

The proper name of subject heading is followed by a brief descriptive sub-entry and by a reference line. Unrelated sub-entries are paragraphed singly in chronological order.

James W A. Coburn, Ed. 1937-1960

NARRATIVE - Politics and Government: SCHOOL - Ohio - Textbooks.

The reference line indicates date, page, and column. Examples: W 1, 9:2, meaning November 1, page 9, column 2.

When the location of an event is not expressly designated or otherwise indicated under subject, the place of action is local.

The following are examples of index entries for a person, an organization, and a subject, with reference lines:

SHRIVER, P
Injured when auto overturned, S 26, 1:4

FISH AND GAME ASSN., PORTAGE
Electa officers; L S Myers speaks, Ap 29, 37:2

LABOR
