ABRAXON RECON JOURNAL INDEX

INDEX

1945
May 1 through Dec 31

FOREWORD

This selective index of Ohio news and opinion, compiled from the Home Edition of the Summit Beacon, is intended as a key or guide and not as a digest. However, the information given will often be found without reference to the newspaper or to the microfiche copy.

The Akron Beacon Journal Index is sponsored by the Akron Public Library and the State Library of Ohio under a Library Services and Construction Act grant. It is a continuation of the project originated by the U.S. Works Progress Administration. Microfiche newspaper copies were supplied by the Akron Public Library.

HOM TO USE THE ABRAXON RECON JOURNAL INDEX

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than under general headings. Examples: Baseball name is under BASEBALL, and not under SPORTS; news concerning the New York Central Railroad is under that name and not under RAILROADS or TRANSPORTATION.

With few exceptions names of organizations appear under the key word of the name. Examples: MEDICAL OFFICERS' CLUB IN OHIO, ASAM OF, SOCIAL WORKERS, WILL, CONF OF, LABOR, OHIO FED OF. Exceptions: Companies and some well-established names. Headings are sub-divided by geographical and topical subheads. Examples: FRANCE - Politics and Government; SCHOOLS - Ohio Textbooks.

The proper name of subject heading is followed by a brief descriptive sub-entry and by a reference line. Unrelated sub-entries are paragraphed singly in chronological order. With related sub-entries continually maintained by arranging the items chronologically within the same paragraph. In a few instances, where material is entered only under general headings (e.g., BOOKS, MOTION PICTURES, BIRTH, DEATH, MARRIAGE), the sub-entries are arranged alphabetically.

The reference line indicates date, page, and column. Examples: H 1, C 2, meaning November 1, page 9, column 2.

When the location of an event is not expressly designated or otherwise indicated under subject, the place of action is local.

The following are examples of index entries for a person, an organization, and a subject, with reference lines:
