HOW TO USE THE AARON BEACON JOURNAL INDEX

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than under general headings. Examples: Baseball names are under BASEBALL and not under Sports; news concerning the New York Central Railroad is under that name and not under RAILROADS OR TRANSPORTATION. With few exceptions names of organizations appear under the key word of the name. Examples: NEGRO WOMEN'S CLUB IN OHIO; AGRICULTURAL LEAGUE, MELBOURNE; CONG. OF LABOR, OHIO, CENTRAL UNION, WATERTOWN, CONG. OF LABOR, OHIO, FED. OF. Exceptions: Companies and some well-established names. Some headings are sub-divided by geographical and topical sub-heads. Examples: FRANCE - Politics and Government; SCHOOLS - Ohio - Textbooks.

The proper name of subject heading is followed by a brief descriptive sub-entry and by a reference line. Deviated sub-entries are paragraphed separately in chronological order. With related sub-entries continue by arranging the items chronologically within the same paragraph. In a few other instances, material is entered only under general headings (e.g., BOOKS, MOTION PICTURES, ART, MUSIC, EXHIBITIONS), the sub-entries are arranged alphabetically.

The reference line indicates date, page, and column. Example: N 1, 9/1, meaning November 1, page 9, column 2.

When the location of an event is not expressly designated or otherwise indicated under subject, the place of action is local.

The following are examples of index entries for a person, an organization, and a subject, with reference lines:

SHEPHERD, P
Injured in auto overturns, S 26, 1/4

FISH AND GAME ASSN, PORTAGE
Elects officers; L S Myers speaks, Ap 26, 27/2

LADOR

Cross references are used to direct the reader to the proper headings or to additional material under related headings. Examples:
