HOW TO USE THE AARON BEACON JOURNAL INDEX

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than under general headings. Examples: Baseball news is under BASEBALL and not under SPORTS; news concerning the New York Central Railroad is under that name and not under RAILROAD or TRANSPORTATION.

With few exceptions names of organizations appear under the key word of the name. Examples: MMDT WOMEN'S CLUB IN OHIO, ASYN OF; SOCIAL WORK, MENTAL HEALTH COMF OF; LABOR, OHIO FED OF. Exceptions: Corporations and some well-established names. Some headings are sub-divided by geographical and topical sub-heads. Examples: FRANCE - Politics and Government; SCHOOL; Ohio - Textbooks.

The proper name of subject heading is followed by a brief descriptive sub-entry and by a reference line. Related sub-entries are paragraphs singly in chronological order. With related sub-entries continuity is maintained by arranging the items chronologically within the same paragraph. In a few other instances, where material is entered only under general headings (e.g., BOOKS, MOTION PICTURES, BITING, KIDNAPPING, WIDOWED), the sub-entries are arranged alphabetically.

The reference line indicates date, page, and column. Example: W 1, 5/2, meaning November 1, page 9, column 2.

When the location of an event is not expressly designated or otherwise counted under subject, the place of action is local.

The following are examples of index entries for a person, an organization, and a subject, with reference lines:

SHAW, F. Injured when auto overturned, S 25, 1:4
FISH AND GAME ASSN, PORTAGE. Elects officers; L S Myers speaks, Ap 29, 37:2
LABOR. Viewed as having power to abolish war, poverty, and charity, 1er, D 28, 4:5

Cross references are used to direct the reader to the proper headings or to additional material under related headings. Examples:

ABANDONED CHILDREN. See Children
MARRIAGES AND MARRIAGES
See also Bigamy; Divorce; Families
