FOREWORD

The Newspaper Index Project is sponsored by the Ohio State Archaeological and Historical Society, the Akron Beacon Journal, and the Akron Public Library. The Akron Beacon Journal Index is co-sponsored by the Akron Public Library and the City of Akron.

Acknowledgments are due to the Akron Beacon Journal, the Akron Public Library, and the Ohio State Archaeological and Historical Society for supplying the necessary newspaper files. The Akron Beacon Journal has also contributed importantly in the matter of office space and equipment. The Ohio State Archaeological and Historical Society has supplied valuable technical aid since the inception of the Project.

HOW TO USE THE AKRON BEACON JOURNAL INDEX

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than under general headings. Examples: Baseball under BASEBALL; and not under SPORTS; news concerning the New York Central Railroad under that name and not under RAILROADS or TRANSPORTATION. With few exceptions names of organizations appear under the key word of the name. Examples: NEAR WOMEN'S CLUBS IN OHIO, AGRICULTURAL; SOCIAL WORK, RURAL CONF.; LABOR, OHIO PED., ETC. Exceptions: chambers of commerce, companies, and some well-established names. Whenever necessary, headings are subdivided by geographical and topical subheads. Examples: FRANCE - Politics and Government; SCHOOLS - Ohio - Textbooks.

The proper name or subject heading is followed by a brief descriptive sub-entry and by a reference line. The following arrangement of sub-entries under headings is generally observed: Unusual sub-entries are paragraphed singly in chronological order. In the case of related sub-entries continuity is maintained by arranging the items chronologically within the same paragraph. In a few other instances, where material is entered only under general headings (e.g., BOOKS, MOVIES, PICTURES, BIBLIOGRAPHY, MARRIAGES), the sub-entries are arranged alphabetically.

The reference line indicates date, page, and column. Examples: 10-1, 9-20, meaning November 10, page 9, column 2.

When the location of an event is not expressly designated or otherwise indicated under subject, the place of action is local.
### ACCIDENTS

**NOTE:** Collisions between different vehicles are entered under the larger one. Follow-up stories and damage suits resulting from accidents are entered under the names of individuals involved.

**ASPHALTALION**
- Cleveland
- William Giles killed by choke dam, Jy 15, 4:0

**BICYCLES**
- Cause & Prevention
- Cyclists urged to signal when approaching pedestrians, Jy 19, 1:1
