HOW TO USE THE AKRON BEACON JOURNAL INDEX

The following are examples of index entries for a person, an organization, and a subject, with reference lines:

**SILVA, P**  
Injured when auto overturns, 5 26, 1:4

**FISH AND GAME ASSN, PORTAGE**  
Elects officers; L S Myers speaks, Ap 29, 37:2

**LABOR**  
Viewed as having power to abolish war, poverty, and charity, ltr, D 28, 4:5

Cross references are used to direct the reader to the proper headings or to additional material under related headings. Examples:

**ABANDONED CHILDREN. See Children**

**MARRIAGE AND MARRIAGES.**  
See also Bigamy; Divorce; Families

How to use the Akron Beacon Journal Index

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than under general headings. Examples:

Baseball news is under BASEBALL and not under SPORTS: news concerning the New York Central Railroad is under that name and not under RAILROADS or TRANSPORTATION. With few exceptions, names of organizations appear under the key word of the name. Examples: NEGRO WOMEN'S CLUBS in OHIO, ASIA OF; SOCIAL WORK, NATL CONF OF; LABOR, OHIO FED OF. Exceptions: chambers of commerce, companies, and some well-established names. Whenever necessary, headings are subdivided by geographical and topical subdivisions. Examples: FOREIGN POLICIES; GOVERNMENT; SCHOOL - Ohio; Textbooks.

The proper name or subject heading is followed by a brief descriptive sub-entry and by a reference line. The following arrangement of sub-entries under headings is generally observed: Unrelated sub-entries are paragraphed simply in chronological order. In the case of related sub-entries, continuity is maintained by arranging the items chronologically within the same paragraph. In a few instances, where material is entered only under general headings (e.g. BOOKS, MOTION PICTURES, BIRTH, DEATH, MARRIAGES), the sub-entries are arranged alphabetically.

The reference line indicates date, page, and column. Example: N 1, 5:2; meaning November 1, page 9, column 2.

When the location of an event is not expressly designated, all other indicated under subject, the place of action is local.
