How to Use the Akron Beacon Journal Index

The following are examples of index entries for a person, an organization, and a subject, with reference lines:

SHIVER, P
Injured when auto overturns, S 26, 1:4

FISH AND GAME COMMISSIONER speaks; L. S. Myers speaks, Ap 29, 37:2

LABOR
Viewed as having power to abolish war, poverty, and charity, 11r, u 26, 4:5

Cross references are used to direct the reader to the proper headings or to additional material under related headings. Examples:

ABANDONED CHILDREN. See Children
MARRIAGE AND MARRIAGES
See also Divorce; Families

How to Use the Akron Beacon Journal Index

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than under general headings. Examples: Baseball news is under BASEBALL, and not under SPORTS; news concerning the New York Central Railroad is under that name and not under RAILROADS or TRANSPORTATION, with few exceptions names of organizations appear under the key word of the name. Examples: NEGRO WOMEN'S CLUBS IN OHIO, OHIO OF.; SOCIAL WORK, OHIO CONFERENCE OF LABOR, OHIO FED OF. Exceptions: Chambers of commerce, companies, and some well-established names. Whichever necessary, headings are subdivided by geographical and topical subheads. Examples: FINANCE - Politics and Government; SCHOOLS - Ohio - Textbooks.

The proper name or subject heading is followed by a brief descriptive sub-entry and by a reference line. The following arrangement of sub-entries under headings is generally observed: Unrelated sub-entries are paragraphed singly in chronological order. In the case of related sub-entries continuity is maintained by arranging the items chronologically within the same paragraph. In a few other instances, where material is entered only under general headings (e.g., BOOKS, BUSINESS, FIGURES, DIVERSITY, DEATHS, MARRIAGES), the sub-entries are arranged alphabetically.

The reference line indicates date, page, and column, Example: N 1, 9:2, meaning November 1, page 9, column 2.

When the location of an event is not expressly designated or otherwise indicated under subject, the place of action is local. 

Acknowledgments are due to the Akron Beacon Journal, the Akron Public Library, and the Ohio State Archaeological and Historical Society for supplying the necessary newspaper files. The Akron Beacon Journal has also contributed importantly in the matter of office space and equipment. The Ohio State Archaeological and Historical Society has supplied valuable technical aid since the inception of the project.
